Over a year in the making, Industry partners from CVSN, GenNext, HDATP, and VIPAR HD have come together to make the HD industry job board a reality. Candidates can now easily search for jobs that fit their experience in the HD industry and pinpoint to any geographical location in North America.

Likewise this tool can be used by both our distributor and supplier members to post jobs and get the talent that they need in order to hire and retain the most valuable asset to your businesses, quality employees. The user can at any time create, change or delete their job postings. The listing will remain for 60 days at that point if the listing is still up on the site an email will be send to them to continue the posting or remove the posting.

The site is ready for members/anyone to post job listings. They can go to either of the two URLs to post their listing. They both point at the same website.
